DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 7, lines 20-21, the limitation "in health-dangering concentrations" renders the claim indefinite because there is no objective standard to determine the concentrations at which gases become health-endangering."

Allowable Subject Matter

Claims 7 and 8 are allowed over the present art of record.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 3,962,297 discloses in the art the use of ferrocene as a catalyst.
